

Planetsim GPRS internet connection setup for Android

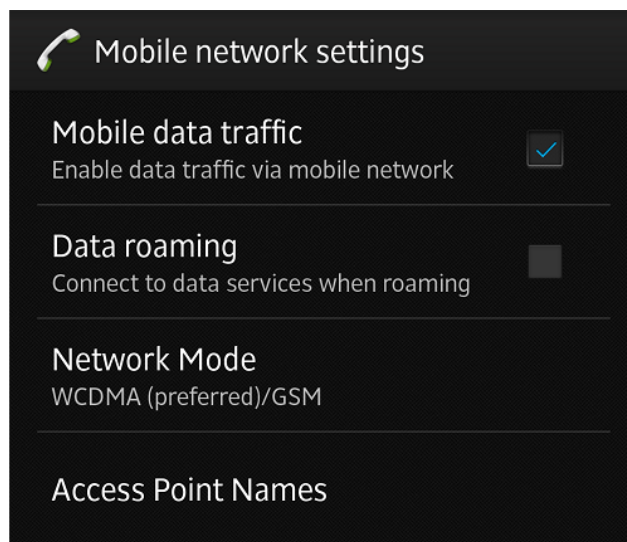

1. Go to menu Settings of your Android smartphone.

2. At Settings menu at Wireless and Networks section click at More... button or Networks.

3. Click at Mobile Networks.

4. Click at Access Point Names.

If there is no APN create new APN by clicking at menu button (see bellow).

5.Fill with information bellow:

PlanetSim Classic

APN: send.ee

Username: your number PlanetSim (3725...) without 00 or + in front

Password : leave empty

PlanetSim Data

APN: apn

Username: leave empty

Password: leave empty

6.Save the new APN.

7.Enable the Data Connection

And you are ready
