

Planetsim GPRS internet connection setup for Iphone

Iphone Gprs instructions to use our data plans with your PlanetSim.

Press Settings icon from SpringBoard of your iPhone. and then go to General Menu.

Then to Network Menu and then go to Cellular Data Networking.

After fill with

APN: send.ee (for PlanetSim Data apn: apn)

Username: your PlanetSim number (3725...) (for PlanetSim Data username: leave empty)

Password: leave empty

If you want to use data for internet etc then turn **Data Roaming ON**.

Dont forget to turn Data Roaming off when you finish your job ,otherwise you will continue transmit and receive data.
